Darana Sukma Vidya

Frontend Developer & UI/UX Engineer

Frontend Engineer & Web Developer with over 8 years experience. I have lots of experience in the production of HTML, CSS and JavaScript for modern websites.

Passionate about UI/UX and web technologies, always trying to make an extra effort to learn new approaches and techniques. Enjoy working in a team as well as solo.

Garut

I actually do a lot of task from start to finish of every project. My role is to check every clients needs and requirement so that I could develop an strategy or a plan to make every project happen. I am the one who actually check the time frame for every project and also every details of the project progress. also i code for some part of the project and guide other developer on their development process. I also handles every details of the project when the project is done I will be the one that will present it to the Manager and sometime to the client .
